THE EVENT DEDICATED TO INNOVATION AND AEROSPACE AND AERONAUTICAL TECHNOLOGY

A biennial event that will present services, technologies and solutions that companies and operators design and study to make the sector more efficient.

W Wednesday 25 • T Thursday 26
October

**The event program is structured to
target three well-defined
audiences:**

B2B:

Aerospace and aeronautics companies with particular interest to the world of drones and spatial sub-supply, technology and innovation. Investors and investment funds.

TRAINING:

Young high school students willing to choose their educational path

PUBBLICO:

Aerospace enthusiasts and curious.

San Marino Aerospace B2B

Presentation of the industrial and tourist attractions of San Marino.

Presentation of the San Marino's and International Clusters that will join the event.

Presentation of the main corporate groups that will be present with their own stands.

Congresses and training areas

Presentation of the training proposals offered by Republic of San Marino.

Presentation of training proposals offered by the main schools, universities and research centres that will be present.

Presentation of the main San Marino's and International aerospace clusters.

Guided tour of the stands.

GOALS OF THE EVENT

- Create a biennial event that will give the opportunity to present innovations and technologies of the sectors of aerospace, drones, technologies and defense.
- Focus in two days a calendar of appointments worth a year of work.
- Put at the heart of the project the territory's capacity for innovation and technology transfer and put it at the service of the aerospace and defense markets.
- Centralize human resources and training capabilities.
