

SAN MARINO 2025
AEROSPACE

Nov. 4-5 | II EDITION

**AFRICA MEETS
EUROPE...
AND NOT ONLY**
in San Marino

A composite image showing a rocket launch and a satellite in space. The top half shows a rocket ascending with a bright plume of fire and smoke. The bottom half shows a satellite with large solar panels deployed, orbiting Earth. The background is a deep blue space with a thin layer of Earth's atmosphere visible at the bottom.

THE II EDITION OF THE EVENT DEDICATED TO SPACE, AEROSPACE, INNOVATION, NEW TECHNOLOGIES

A biennial event that will present services, technologies and solutions that companies and operators design and study to make the sector more efficient.

THE EVENT PROGRAM IS STRUCTURED TO ATTRACT THREE WELL-DEFINED AUDIENCE TARGETS:

B2B: Aerospace and aeronautics companies with particular interest to the world of drones and spatial sub-supply, technology and innovation. Investors and investment funds.

TRAINING: Young high school students willing to choose their educational path

PUBLIC: Aerospace enthusiasts and curious

SAN MARINO AEROSPACE IS

B2B

EXHIBITION AREA

CONGRESSES
AND TRAINING AREAS

GOALS OF THE EVENT

- Create a biennial event that will give the opportunity to present innovations and technologies of the sectors of aerospace, drones, technologies and defense.
- Focus in two days a calendar of appointments worth a year of work.
- Put at the heart of the project the territory's capacity for innovation and technology transfer and put it at the service of the aerospace and defense markets.
- Centralize human resources and training capabilities.
